

H₂O-CT4

Product Overview

The H₂O-CT4 is a high capacity water filtration countertop system. The filter uses an advanced proprietary replaceable cartridge with granular coconut shell carbon (GAC) and KDF 55 process media to reduce chlorine, organic volatile compounds (VOC) and other contaminants responsible for taste, appearance and odor that may be present in municipally supplied water. Installed effortlessly in most standard kitchen faucets with a diverter valve for dispensing filtered water when desired. Long lasting high capacity filter provides great value per cost.

Max Capacity	12,000 gal (45,425 liters)
Recommended Flow	0.5 to 1.0 gpm (1.89 to 3.79 lpm)
Unit Height	10.5" (26.7 cm)
Unit Width	5.0 " diameter (12.7 cm)
Unit Box Dimensions	6" x 13" x 6" (15.2 x 33 x 15.2 cm)
Unit Shipping Weight	7.0 lbs (3.2 kg)
Packing	12 per master case
Master Dimensions	27" x 18" x 12" (68.6 x 45.7 x 30.5 cm)
Master Case Weight	80.0 lbs (36.3 kg)

Product Highlights

- Sealed Cartridge System with 12,000 gallon capacity
- KDF® / GAC Filter Media
- Installs in minutes without tools
- kitchen faucet diverter and adapters that fits most standard faucets
- Long-reach swivel spout
- Bacteriostatic media prevents bacteria growth (algae, fungi)
- Improves taste and color, eliminates odors
- Reduces most EPA listed contaminants
- Includes prorated warranty

Optional 5-micron pre-filter will block sediment to prolong the life of the filter

Water faucet Diverter and adapters included

10.5" (26.7 cm)
