

H₂O-RCT-CP

Product Overview

The H₂O-RCT-CP is a replaceable cartridge water filtration countertop system in a chrome finish. The filter uses a unique proprietary replaceable cartridge that fits our housing. Standard 10" cartridges will not fit in our housing thus increasing customer retention. Cartridge will also fit standard 10" housings with the use of a removable spacer. The filtration media contains granular coconut shell carbon (GAC) and KDF 55 process media, to reduce chlorine, organic volatile compounds (VOC) and other pollutants that cause bad taste, appearance and odor in tap water. Installed effortlessly in most standard kitchen faucets with a diverter valve for dispensing filtered water when desired. Reduces chlorine and other contaminants that may exist in tap water.

Max Capacity	5,000 gal (18,927 L)
Recommended Flow	0.5 to 1.0 gpm (1.89 to 3.79 lpm)
Unit Height	11.5" (29.2 cm)
Unit Width	5.75 " diameter (14.6 cm)
Unit Box Dimensions	13" x 6" x 6" (33 x 15.2 x 15.2 cm)
Unit Shipping Weight	5.0 lbs. (2.3 kg)
Packing	12 per master case
Master Dimensions	26" x 19" x 12" (66 x 48.26 x 30.48 cm)
Master Case Weight	60 lbs. (27.2 kg)

Product Highlights

- Replaceable Cartridge System with 5,000 gallon capacity
- KDF® / GAC Filter Media
- Can be used with ¼" MPT threaded ceramic candle cartridge
- Proprietary filter cartridge
- Installs in minutes without tools
- Includes kitchen faucet diverter and adapters that fit most standard faucets
- Long-reach swivel spout
- Bacteriostatic media prevents bacteria growth (algae, fungi)
- Improves taste and color, eliminates odors
- Reduces most EPA listed contaminants
- Includes prorated warranty

Housing wrench included

Water faucet
Diverter and adapters included

11.5" (29.2 cm)
