

# H<sub>2</sub>O-RUSD

## Product Overview

The -H<sub>2</sub>O-RUSD is an undersink filter system with replaceable cartridge and sediment pre-filter. Installed under the sink and out of sight, designed to connect to a separate long reach faucet. Granular coconut shell carbon (GAC) and KDF 55 process media are combined in this cartridge to reduce chlorine, organic volatile compounds (VOC) and other pollutants that cause bad taste, appearance and odor in tap water.

## Product Highlights

- Replaceable cartridge system with 5,000 gallon capacity
- Multiple stage filtration KDF® / GAC Filter Media
- 6-stage filtration and purification cartridge
- Connects to separate, chromed, long-reach faucet
- Available inline for direct connection to faucet
- Quick connect fittings for simple installation/replacement
- Bacteriostatic media: prevents bacteria growth (algae, fungi)
- Improves taste and color, eliminates odor
- Reduces most EPA-listed contaminants
- Includes prorated warranty
