

H₂O-CT

Product Overview

The H₂O International Countertop Filter reduces chlorine and other contaminants that may exist in tap water through three filtration stages: KDF 55, Granular Activated Carbon (GAC) and a 5 micron sediment pad, improving odor, flavor and appearance of municipal water. This product is ideal for use in small kitchens and/or recreational vehicle and campers. Excellent performance value per cost.

Product Highlights

- 10,000 gallon capacity
- Compact and lightweight
- 5 stage filtration: KDF / GAC with a 5 micron pad for sediment reduction
- Kitchen faucet diverter and adapters fit most standard faucets
- Quick connect fittings for simple installation/replacement
- Bacteriostatic media prevents bacteria growth (algae, fungi)
- Improves taste and color, eliminates odors
- Reduces most EPA-listed contaminants
- Laboratory tested
- Includes a prorated warranty

Max Capacity	10,000 gal (11,356 L)
Recommended Flow	0.5 gpm (1.89 lpm)
Unit Height	11.5" (29.2 cm)
Unit Width	3.5" dia. (8.9 cm)
Unit Box Dimensions	7" x 5" x 12" (17.8 x 12.7 x 30.5 cm)
Unit Shipping Weight	5.0 lbs (2.27 kg)
Packing	12 per master case
Master Dimensions	21" x 19" x 14" (53.34 x 48.26 x 35.56 cm)
Master Case Weight	60 lbs (27.22 kg)

Optional 5-micron pre-filter will block sediment to prolong the life of the filter

Water faucet
Diverter and adapters included
